- Line #1: DOES COMPLY with the technical requirements set at TS #06/TEC/23.
- Lines #2 & #3: DO TECHNICALLY COMPLY with the technical requirements set at TS #27/TEC/22.

For the analysis made to the bid proposal submitted by ORIGINAL PART SYSTEMS & SERVICES S.A., it has been taken into account the recommendations from the ONC (National Contracting Office) written on Minutes #IF-2016-03063907-APN-ONC#MM and on Note #NO-2017-14042885-APN-ONC#MM, useful for the control of the documents submitted by the offeror, and the traditions of the country in which the contractual act is held.

Likewise, it is important to highlight that this Evaluation Committee performed its duties within the country, without translators who can facilitate the analysis of the bids. Samples of the products were not available, either. Even though samples were not requested in the Terms and Conditions or Technical Specifications of the contractual act these are useful for a better evaluation. In that regard, the possibility to be in the acquisition country (Argentine Military Attache's Office in the U.S) turns into a more appropriate and more organized bid evaluation, namely:

- As per Section 67 from Decree 1030/16 "National Contracting Administration Guidelines", the Evaluation Committee might request the bidders to rectify mistakes or omissions by submitting the corresponding documents to the Acquisitions Operational Unit at the Argentine Military Attaché's Office in the U.S., within THREE (3) days.
- Section 70 from Decree 1030/16 "National Contracting Administration Guidelines" reads that in the event of a bid tie a place for a public draw shall be determined; said draw shall be performed in the presence of the interested parts.

That this contract complies with the criteria established in Minutes issued by the ONC IF-2016- 03063907-APN-ONC#MM, on November 8, 2016. Said document reads that for the selection procedures carried out abroad the provisions of the Regulation approved by Decree No. 1030/16 and the complementary regulations dictated accordingly with the adaptations that are pertinent as per the uses and customs of the place of execution of the contract, may be applied if they were not incompatible with the general principles of articles 1 and 3 of Delegate Decree No.1023/01.

The intervention of this *Transitory Evaluation Committee* takes place for the purpose of performing the instructed by the CHIEF OF THE GENERAL STAFF OF THE ARGENTINE ARMY, on his Special Order #1133/CQ/18 (Manual for Selection procedures and contracts performed abroad) and the decision instructed by RESOL-2023-857-APN-JEMGE#EA.

In consequence,

THE TRANSITORY EVALUATION COMMITTEE

RECOMMENDS:
